

SUBJECT INDEX TO VOLUME 36

JULY—DECEMBER, 1964

References are to page numbers. An asterisk denotes title and reference only

- Abscess, cerebral, changing aspects, review of 110 cases, 204
 —, perirectal, lymphogranuloma venereum in patients with, homosexuality and, 326
 —, pulmonary, acute primary non-specific, oral potassium benzylpenicillin treatment, 349
 Acetohexamide in diabetes, 119, 356
 Acetone level of expired air in diabetes, 356
 Acetylcysteine, mucolytic action, clinical study, 425
 Acid-base balance, maternal, during labour, relation to development of respiratory distress syndrome in newborn infant, 214
 Acidosis, metabolic, in cardiac arrest, management, 95
 — of acute dehydration in newborn infants, trihydro-methyl-aminomethane treatment, 132
 ACTH, *see* Corticotrophin
 Actinospectacin, effect in subclinical incubating experimental syphilis, 167
 Adams-Stokes syndrome, implanted pacemaker in, rate of pacing required, 417
 Addiction, morphine and opium, amiphenazole treatment, 364
 Adenoma, chromophobe, of pituitary, radiological investigation, 452
 Adenotonsillectomy in children, anaesthetic technique for, 376
 Adenovirus infection, clinical picture and diagnosis in adults, 395
 — Type 12 infection, 14
 — — — associated with acute infectious lymphocytosis simulating whooping-cough, 15
 Adolescence, allergic diseases in, 404
 —, growth hormone levels in, 62
 Adolescent crisis, clinical course, 207
 Adrenal cortex function in chronic malnutrition, 193
 — — — peptic ulcer, response to stimulation with corticotrophin, 407
 — — — progressive muscular dystrophy, 52
 — function in allergy, 92
 — haemorrhage and necrosis in adults, clinico-pathological study, 290
 — in rapid death and chronic illness, histological study, 7
 — insufficiency, mechanism of insulin hypersensitivity in, 290
 Adrenergic drugs, inhalation in asthma, comparison with atropine methonitrate, 255
 — receptor mechanisms, α - and β -, in systemic vascular bed, 391
 Aerosol, superheated, as bronchodilator vehicle, acute ventilation responses, 109
 Affective illness in patients over 50, genetic study, 207
 Agranulocytosis, relapsing, 277
 Air pollution from diesel- and petrol-powered vehicles in partially segregated traffic lanes, 307
 Alcohol ingestion, violent antisocial behaviour after, 219
 — intoxication, acute pathological, electroencephalogram in, 219
 Alcohol level in blood, methods of breath analysis for, 139
 Alcoholism, chronic, chlorpropamide treatment, 196
 Aldosterone antagonist in diuretic therapy of congestive heart failure, effect on refractory phase, 274
 — —, metyrapone as, 319
 — excretion in essential hypertension, 342
 — in pathogenesis and perpetuation of oedema in congestive heart failure, 273
 — secretion rate and electrolyte balance in hypertension, effect of guanethidine, hydralazine, and methyclothiazide on, 274
 Aldrin poisoning in insecticide manufacture, 67
 Alkalosis, metabolic, in hypertrophic pyloric stenosis, clinical significance and treatment, 217
 "Alkeran" in myelomatosis, 321, 394
 Allergy, 20-2, 92, 255-6, 328, 404-5
 —, adrenal function in, 92
 — in adolescence, prevalence of, and changes in manifestations during, 404
 —, respiratory, effect of corticotrophin and cortisol on urinary excretion of serotonin metabolites in, 22
 — to ACTH of animal and human origin, 256
 — — drugs, basophil test for, 20
 — — moulds, mycelium extracts in skin sensitivity tests, 92
 — — penicillin, indirect basophil degranulation test in, 320
 n-Allylnoroxymorphone, effect on respiratory depression induced by oxymorphone, 247
 Alopecia areata, intramuscular triamcinolone acetate treatment, 211
 Amino-acids, serum, in kwashiorkor, relationship to clinical condition and method of estimation, 401
 Aminoaciduria, familial streblodactyly with, 64
 D-Aminolaevulinic acid, urinary excretion, estimation in early diagnosis of lead poisoning, 375
 Amiphenazole in morphine and opium addiction, 364
 Amitriptyline in chronic tension headache, 436
 — — depression, hospital study, 442
 Amoebiasis, acute, dehydroemetine treatment, 403
 —, iodochlorhydroxyquinoline prophylaxis and treatment, 401
 Ampicillin, effectiveness against Gram-negative bacteria, studies *in vitro* and *in vivo*, 81
 — in paratyphoid, comparison with chloramphenicol, 16
 — — penicillin-resistant gonorrhoea, 400
 — — typhoid, 323
 — with neomycin in treatment of salmonella infection and salmonella carriers, 84
 Amylase activity in pleura in pleurisy, 425
 Amylobarbitone sodium, haemodynamic effects in hypertension, 152
 Amyloidosis, cardiac, report of 28 cases, 415
 Anaemia, Addisonian, hydroxocobalamin and cyanocobalamin in, comparison of blood and urine levels of vitamin B₁₂ after, 41
 — after gastrectomy and intestinal resection, haematopoiesis in, 187
 —, aplastic, in American radiologists, 71
 —, —, phytohaemagglutinin treatment, 423
 —, delayed, in ABO haemolytic disease of newborn, 214
 —, electrocardiogram in, 268
 —, haemodilution, associated with simple splenic hyperplasia, 423
 —, haemolytic, autoimmune, in leukaemia, morphology, 8
 —, —, congenital non-spherocytic, with specific enzyme defects, 278
 —, —, drug-induced, biochemical aspects, 42*
 —, —, hereditary, secondary to glucose-6-phosphate dehydrogenase deficiency, 278
 —, —, in Hodgkin's disease associated with immunoglobulin deficiencies, 424
 — in children, binding of radioactive trace elements with serum protein fractions in, 133
 —, iron-deficiency, autoimmunity in, 346
 —, —, gastrointestinal effects, 187
 —, —, in bilharzial splenomegaly, 91
 —, —, intravenous iron-dextran complex in, 277
 —, —, with unexplained occult blood loss, 346
 —, megaloblastic, diagnosis by small oral doses of folic acid, 345
 —, —, due to folic acid deficiency in haemochromatosis, 42
 —, —, — — or vitamin-B₁₂ deficiency, 278
 —, —, in pregnancy, relation of serum folic acid and vitamin-B₁₂ levels to, 279
 —, pernicious, bacterial flora of small intestine in, 346
 —, —, erythropoietic response to thy-midine in, 280
 —, —, gastric biopsy in, ultrastructural study, 148
 —, —, intestinal absorption in, 346
 —, —, protective effect on development of atherosclerosis, 101
 —, refractory, oxymetholone treatment, 345
 —, sickle-cell, glucose-6-phosphate dehydrogenase deficiency, and malarial endemicity in Greece, 278
 —, —, in children, aplastic crises in, 347
 Anaesthesia for adenotonsillectomy in children, 376
 —, general, hydrate microcrystal theory of, 69
 —, —, respiratory effects, 376
 Anaesthetics, 68-70, 220-1, 376
 —, effect on cellular membranes, 220
 —, intravenous, comparison as main agents for standard operations, 68
 Analgesia, obstetric, nitrous oxide and oxygen from single cylinder in, 69
 Analgesics, narcotic antagonist, without psychotomimetic effects in postoperative pain, 154
 —, topical, comparative potency and effectiveness, 12

- Anaphylaxis, fatal systemic, in man, 256
 Anastomosis enlargement in coronary artery disease, time factor in, 75
 —, portacaval, prophylactic, in liver cirrhosis, 175
 Androgens for growth stimulation in short children, effect on bone maturity and linear growth, 448
 Androsthenol excretion, urinary, in mental illness, 362
 Aneurysm, dissecting, histology of aortic media in, 316
 —, multiple intracranial, association of subarachnoid haemorrhage with, 203
 — of heart wall, clinical and electrocardiographic findings, 273
 Angina pectoris, sympathectomy in, effect on electrocardiogram and effort tolerance, 271
 Angioendothelioma, malignant, of skin, 213
 Angiography, aorto-cervical, in occlusive cerebrovascular disease, 142
 —, cerebral, routine urography during, 71
 — in acute renal failure, 312
 Angiotensin, circulatory effects in shock, 276
 —, exogenous, effect on blood pressure in hypertension, 343
 — skin test, relation to hypertension, 422
 — II, intravenous, response of renal hypertensive rats to, 74
 Anorexia nervosa, capillary-venous glucose differences in, 171
 Anosmia, post-traumatic, 301
 Anoxia in newborn infants, acute tubular nephrosis as manifestation of, 216
 "Antabuse" effect of chlorpropamide treatment, 196
 Antibiotics, potentially nephrotoxic, in Gram-negative infections in uraemia, 47
 —, resistance to, multiple, in *Staph. aureus*, correlation with high penicillinase production, 10
 Antibody, circulating, to bile ductular cells in liver disease, 315
 —, fluorescent, technique in detection of pathogenic *E. coli* in river water, 65
 —, streptococcal, cross-reactive with heart tissue, association with streptococcal infection, rheumatic fever, and glomerulonephritis, 243
 Anticoagulant therapy, cerebral vascular disease in relation to, 360
 —, continuous, after myocardial infarction, 36, 37
 — in myocardial infarction, 420
 — — thromboembolic disease of brain, 203
 —, prolonged, in obliterative arterial disease, repeated femoral arteriography in assessment, 37
 —, prophylactic, in coronary artery disease, 420
 —, rebound hypercoagulability after stopping, 420
 Antigen, intranasally administered, immunological responses of normal and atopic persons to, 20
 Antimalarial drugs in chronic inflammatory rheumatism, 433
 Anuria in acute glomerulonephritis, 47
 Anxiety, phobic, in housebound housewives, 126
 Aorta, abdominal, calcification with gastric ulcer in old age, 261
 — coarctation with atypical origin of both subclavian arteries and bidirectional flow in right subclavian artery, 268
 — histology in dissecting aneurysm, 316
 —, homograft valve replacement in incompetence and stenosis, 183
 Aorta stenosis, assessment from external carotid pulse wave, 96
 —, retrograde left ventricular catheterization and cardioangiography in, 183
 —, supraaortic, with peripheral pulmonary stenosis, mental retardation, and similar facial appearance, 268
 —, surgical treatment, results, 34
 Aortography, percutaneous transcatheter thoracic, 143
 Apraxia, constructional, and cerebral dominance, 54
 "Aramine", see Metaraminol
 Arrhythmia, atrial fibrillation and flutter, "cardioversion" in, 418
 —, fibrillation, induced, in open-heart surgery, 179
 —, synchronized electric countershock in, 97
 —, ventricular, in anaesthesia, pronethalol treatment, 221
 Arsenic, radioactive, in papillomatosis of bladder, 309
 Arsine poisoning in slag-washing plant, 66
 "Artane" in Parkinson's disease, 55
 Arteries, carotid, thrombotic and embolic occlusions, prevalence, location, and associated diseases, pathological study, 4
 —, coronary, see Coronary
 —, internal carotid, natural history of occlusion of, 53
 —, —, mammary, implantation in coronary disease, follow-up study, 182
 —, —, —, with free omental graft in coronary artery disease, 341
 —, peripheral, disease assessment by strain gauge plethysmography, 421
 —, —, —, di-isopropyl ammonium dichloroethanoate in, 38
 —, —, obstructive, repeated femoral arteriography in, effect of long-term anticoagulant treatment, 37
 —, pulmonary, left lateral tomography in detection of abnormalities, 144
 —, —, malformations, angiocardigraphic and haemodynamic study, 276
 —, —, peripheral stenosis of, 276
 —, —, stenotic lesions of, clinical and haemodynamic findings, 268
 —, renal, stenosis without renal ischaemia, 192
 —, vertebral, retrograde blood flow in, a normal phenomenon, 204
 Arteriography, coronary, post-mortem, correlation with electrocardiogram, 341
 —, hepatic, in diagnosis of liver tumours, 224
 —, upright renal, in renal hypertension, 224
 Arteriosclerosis, renal hyaline, electron microscopic study, 150
 Arteriopathy, Takayasu's, natural history, 101
 Arteriosclerosis obliterans, cyclandelate in, clinical and plethysmographic observations, 101
 —, lumbar sympathectomy in, 102
 Arteritis in polymyalgia rheumatica, 120
 Arthritis, see also Monarthritis; Polyarthritis
 — manifestations in regional enteritis, 49
 —, psoriatic, cervical spine in, radiological findings, 49
 —, —, Reiter's syndrome and, link between, 49
 —, recurrent acute, in chronic renal failure treated with periodic haemodialysis, 286
 —, rheumatoid, activity measured by "bromsulphalein" test, 434
 —, —, acute synovial rupture in, 296
 Arthritis, rheumatoid, antiperinuclear factor in serum in, 434
 —, —, association with haemochromatosis, 198
 —, —, clinical, chemical, and serological manifestations, 120
 —, —, course and prognosis, 358
 —, —, digital blood flow in, calorimetric study, 50
 —, —, early radiological changes in wrists, hands, and feet in, 379
 —, —, folic acid deficiency in, 50
 —, —, hyaluronic acid concentration and intrinsic viscosity in synovial fluid in, 297
 —, —, in patients under 25 years of age, 435
 —, —, — women, radiological changes in sacro-iliac joint in, 199
 —, —, indomethacin treatment, 199, 357
 —, —, latex fixation test in, longitudinal study of titre of rheumatoid factor and thermolabile inhibitor, 199
 —, —, test for, 434
 —, —, long remissions in, 435
 —, —, lysosomes in synovial membrane in, 244
 —, —, motor nerve conduction in, 435
 —, —, oedema of feet and ankles in, 435
 —, —, of lumbar spine, 359
 —, —, optic fundal changes in, 296
 —, —, peripheral neuropathy in, clinical and electromyographic study, 359
 —, —, prednisolone in small doses in, effect on morning stiffness, 200
 —, —, prednisone treatment, effect on pituitary-adrenocortical reserve, 198
 —, —, psoriatic arthropathy and, radiological comparison, 452
 —, —, renal function in, relation to onset, 359
 —, —, rib lesions of, 380
 —, —, sanatorium management, 51
 —, —, seronegative and seropositive, clinical, radiological, and biochemical differences, 50
 —, —, simultaneous salicylate concentrations in synovial fluid and plasma in, 297
 —, —, tryptophan metabolite excretion in, 434
 Arthropathy, psoriatic, radiological comparison with rheumatoid arthritis, 452
 Asbestos dust, elution of 3,4-benzopyrene and oils from, by serum, 308
 — exposure and carcinoma of lung, 373
 — — mesothelioma, 373
 — workers, cardiopulmonary function studies in, 218
 Asbestosis, peritoneal tumours in, 66
 Aspergillosis, bronchopulmonary, correlation of clinical and laboratory findings, 109
 —, secondary, clinical and pathological features, 250
 Aspirin, effect on circulatory responses to catecholamines, 12
 —, — gastric secretion, 408
 Asthma, see also Status asthmaticus
 —, acute, bronchial lavage in, 426
 —, allergic skin responses in, effect of hypnosis on, 328
 —, carotid body removal in, 21
 — due to mountain-cedar pollen, respiratory emulsion therapy, 92
 — effect of suggestion on pulmonary function in, 256
 —, elevated blood enzyme levels in, 328
 —, elixophyllin in, clinical evaluation and correlation of pulmonary function studies and theophyllin serum levels in, 21
 —, functional state of central nervous system in, 127

- Asthma in American Armed Forces in Japan, 405
 — children, effect of dexamethasone aerosols on, 92
 —, inhalation of adrenergic drugs and atropine methonitrate in, comparison, 255
 —, isoprenaline and isoprenaline-phenylephrine aerosols in, comparison, 22
 —, potassium iodide treatment, 405
 —, potentiation of anti-inflammatory action of corticosteroids with methandrostenedione in, 22
 —, temperature change and, epidemiological study of emergency clinic visits in New York, 405
 Ataxia, Friedrich's, cardiomyopathy in, 436*
- Atelectasis, retraction of left upper lobe in, radiological study, 453
- Atherosclerosis, antihypertensive and antifibrinolytic activity of blood in, 38
 —, demonstration of fibrin in white plaques by fluorescent antibody techniques, 75
 —, experimental, effect of cortisone on, 145
 —, occlusive, levels of dietary sucrose in, 421
 —, protective effect of pernicious anaemia on development, 101
- Athetosis, relation of neonatal jaundice of unknown origin to, 131
- Atropine, hypoxaemia due to, 70
 —, methonitrate inhalation in asthma, comparison with adrenergic drugs, 255
- Auditory threshold on Monday mornings in weavers, 372
- Autoimmunity and inflammation, 145
 — in iron-deficiency anaemia, 346
 —, thyroid, as disorder of immunological tolerance, 428
 — to gastric parietal cells, histological and secretory changes in stomach in patients with, 175
 —, prostatic antigen in rheumatic diseases, 314*
- Aversion-relief therapy, new method for general application, 363
- Azotaemia in hepatic failure, clinical and biochemical features, 265
- Azothiopyrine in active chronic hepatitis and lupoid hepatitis, 264
- Bacteriuria, significant, detection of, 151
- Barbiturate intoxication, severe, forced diuresis and haemodialysis in, 219
 — poisoning, acute, removal rates of barbiturates with two types of peritoneal dialysis, 140
- Barium sulphate in bronchography of infants and children, 223
- Basophil degranulation test, indirect, in allergy to antibiotics, 20, 320
- B.C.G., freeze-dried, conversion rates after, 252
 —, intradermal revaccination, local reactions to, 89
- Benzhexol hydrochloride in Parkinson's disease, 55
- Benzodiazepine as anticonvulsant, 55
- Benzylpenicillin, oral, in prophylaxis of recurrent rheumatic fever, 432
- Bereavement, recent, as cause of mental illness, 124
- Beryllium poisoning, chronic, follow-up study, 372
- Betamethasone in lymphoid tumours, 188
 — 17-valerate in psoriasis and eczema, 443
- Bilirubin, *see also* Hyperbilirubinaemia
 — metabolism, review, 23*
- Biopsy, needle, of peritoneum, diagnostic value, 173
- Bladder carcinoma, supervoltage irradiation in, 380
 — papillomatosis, radioactive arsenic treatment, 309
 —, radiological study, choice of contrast medium and possibilities in double-contrast technique, 453
- Blindness attacks, monocular, due to mural thrombosis and subsequent embolism of internal carotid artery, 103
- Blood, antihypertensive and antifibrinolytic activity in atherosclerosis, 38
 — circulation, *see* Circulation
 — coagulation, abnormal, in haemophilia carriers, 277
 — and anticoagulation factors, changes in congenital cyanotic heart disease, 180
 — changes after injury, 4
 —, rebound hypercoagulability after stopping anticoagulant therapy, 420
 —, coagulative and anticoagulative factors in coronary arterial disease, 37
 — flow, cutaneous, in migraine, 53
 —, digital, in rheumatoid arthritis, calorimetric study, 50
 —, retrograde, in vertebral artery, a normal phenomenon, 204
 — groups, distribution in duodenal ulceration among Yorubas of Western Nigeria, 25
 —, occult, in faeces, assessment of routine tests, 313
 — plasma turbidity in ischaemic heart disease, effect of sublingual heparin on, 340
 — platelet Factor-3 activity, development by latex particles, interaction with plasma, 146
 — infusion, behaviour of platelets during first 24 hours after infusion, 4
 — survival in thrombocytopenic purpura, radioactive chromium study, 188
 — pressure, *see also* Hypertension; Hypotension
 —, arterial, in newborn infants, effect of oxygen on, 444
 —, influence on antihypertensive action of normal kidney, 186
 — control, role in preventing complications of hypertension, 185
 —, portal venous, measurement of intrahepatic pressure as index of, 264
 —, pulmonary, in emphysema at rest and during exercise, 348
 —, venous (wedge), correlation with onset and disappearance of dyspnoea in acute left ventricular failure, 184
 — serum, mammalian, tuberculostatic factor of, 80
 — transfusion, exchange, in haemolytic disease of newborn, indications based on role of albumin, 367
 —, via saphenous vein, hypertrophy of one limb after, 444
 —, repeated, isosensitization due to, detection by cross-test in warm colloidal medium, 74
 — vessels, extracranial, evaluation of tortuosity, 436
 —, great, complete transposition, radiological features, 223
 —, mesenteric, experimental occlusion of, radiological appearances of intestines after, 144
 — permeability factors, effect on leucocyte emigration, 1
 —, pulmonary, "adult pattern" in newborn infants, 444
 — volume changes during and after surgery, assessment by microhaematocrit determinations, 70
- Blood volume in essential hypertension, 342
- Body build, correlation with gastric secretion in peptic ulcer, 93
 — temperature maintenance in small newborn infants, 444
 —, relation to lethal action of bacterial endotoxin, 73
 "Body-interior awareness", projective index of, 302
- Bone changes after partial gastrectomy, 406
 — in children with leukaemia, 424
 — cyanotic congenital heart disease, 413
 — thyrotoxicosis, 113
 — development in hand and wrist in mongolism during prepubescent and pubescent years, 62
 — infarction in acute leukaemia, implications for prognosis, 282
 — marrow depression due to methicillin, 393
 — failure, idiopathic, infusion of isogenic bone marrow in, 423
 —, leukaemic, virus particles in cell cultures inoculated with passage fluid from, 245
 — transplant in an identical twin, 423
 — maturation in mongolism, 58, 370
 — maturity in short children, effect of androgens and thyroid extract on, 448
- Brain, *see also* Cerebrovascular; Encephalopathy; Meningitis
 — abscess, changing aspects, review of 110 cases, 204
 — developmental arrest of cerebellum in amaurotic idiocy, 127
 —, frontal lobe disorders, fields of average rates of change in bioelectrical activity in diagnosis, 202
 — infarction, fatal, in migraine, 54
 —, nodular arteriosclerosis in pathogenesis of, 103*
 — lesions, aetiological significance in hypoglycaemia and seizures in childhood, 370
 — stem, acute infarctions in distribution of basilar artery, 300*
 —, thromboembolic disease of, anticoagulants in, 203
 — tumour, pneumoencephalography in, 452
- Breast carcinoma, complications of post-operative irradiation, 141
 —, metastatic, causing pleural effusion, radioactive colloidal gold treatment, 309
 — tuberculosis, chemotherapy and surgical treatment, 324
- Breath analysis for blood alcohol level, evaluation of methods, 139
- Breathing, *see* Respiration
- Bromine disinfection of large swimming pool, 450
- "Bromsulphalein" test as measure of rheumatoid arthritis activity, 434
- Bronchiectasis, cylindrical, infectious agents associated with, 425
- Bronchiolitis, acute, respiratory syncytial virus infection in, serological evidence, 396
- Bronchitis, asthmatic, in American Armed Forces in Japan, 405
 —, chronic, bronchial lavage in, 426
 —, clinical features, 191
 —, effect of acute changes in inspired oxygen concentration on cardiac, respiratory, and renal function in, 190
 —, antibiotic prophylaxis on bacterial flora of sputum, correlation with clinical symptoms, 348
 —, radiotherapy for lung carcinoma in, 455
 —, virological study, 110

- Bronchitis, superheated mist as bronchodilator vehicle in, acute ventilation responses, 109
- Bronchography in diagnosis of sarcoidosis, 349
- infants and children, barium sulphate as contrast agent, 223
- new water-soluble contrast medium for, 453
- with "hytrast", pulmonary inflammatory reaction after, 310
- Bronchopulmonary disease, chronic obstructive, factors influencing prognosis, 426
- , —, heparin treatment, 427
- Bronchus lavage in obstructive lung disease, 426
- secretion, mucolytic action of acetylcysteine on, 425
- tumours commonly designated as adenomata, 389
- Bundle-branch block, *see* Heart block
- Burkitt's tumour, cytological study, 8
- , incidence in Ibadan, W. Nigeria, 91
- , isolation of reovirus from, 245
- , post-mortem study of 50 cases, 148
- Busulphan in polycythaemia vera, ferrokinetics in assessment and selection of patients for treatment, 424
- Butyrophenone derivatives, side-effects and complications, 155
- Byssinosis, epidemiological and clinical aspects, 308
- in Egyptian cotton industry, ventilatory capacity changes during work shift, 65
- Caesarean section, respiratory distress syndrome in infants delivered by, 214
- Calcification of abdominal aorta with gastric ulcer in aged, 261
- coronary artery, detection during life, 272
- Calcium, *see also* Hypercalcaemia
- absorption in sarcoidosis, 258
- infusion test, rapid, for hyperparathyroidism, 354
- intake, large, effect in normal subjects and in chronic renal failure, 192
- metabolism after partial gastrectomy, 259, 406
- in depression, 441
- Calculus, renal, translucent, radiological diagnosis, 224
- , urinary, as complication of surgical treatment of ulcerative colitis, 411
- , —, D-penicillamine prophylaxis, 330
- "Camolar", *see* CI-501
- Cancer, *see* Carcinoma
- Capillary fragility alterations in thyroid disease, 112
- Carbamazepine, anticonvulsive effect in epilepsy, 205, 438
- in trigeminal neuralgia, 438
- Carbazochrome salicylate in pregnancy to prevent erythroblastosis foetalis, 367
- Carbohydrate, intestinal absorption of, 173*
- metabolism in newborn infant, symptomatic neonatal hypoglycaemia, 215
- — obese adolescents, 260
- , serum protein-bound, in cystic fibrosis, paper electrophoretic study, 146
- , —, —, sarcoidosis, 284
- reserves in newborn infant, 60
- Carbon dioxide, influence on neuromuscular block caused by tubocurarine chloride, 376
- Carbutamide-treated diabetes, serum total lipid and lipoprotein fractions in, 118
- Carcinoid syndrome, heart disease associated with, pathological study, 6
- Carcinoma, *see also* organ affected

- Carotid body removal in asthma, 21
- Carpal tunnel syndrome, surgical treatment, 361
- Casts, urinary, causing tubular obstruction in acute renal failure, 111
- Catecholamines, circulatory responses to, effect of aspirin on, 12
- , excretion in essential hypertension, 275
- Catheterization, cardiac, left, combined percutaneous retrograde aortic and transseptal, 413
- , —, —, through axillary artery with micromanometry, 179
- , —, —, transseptal, 31
- , —, —, ventricular, and cardioangiography in aortic stenosis, 183
- of blood vessels in infants and babies, 454
- renal vein in study of renal circulation in cirrhosis, 409
- Cavography, pelvic venography, and lymphography, comparison of diagnostic accuracy, 454
- Cell membranes, effect of anaesthetic agents on, 220
- Cephalosporin derivatives, penicillinase-resistant, 393
- Cephalothin, experimental and clinical studies, 81
- Cerebrospinal fluid, glutamic-oxalacetic transaminase activity in neurological diseases, 313
- in spinal-cord disease in diabetes, 439
- pathways and dynamics of circulation in normal and pathological conditions, isotopic study, 201
- Cerebrovascular accidents, *see* Stroke
- attacks, transient ischaemic, natural history, 436
- disease, change in pattern of, 137
- in relation to long-term anticoagulant therapy, 360
- , long-term hypotensive treatment, 122
- , occlusive, aorto-cervical angiography in, 142
- , rheoencephalography in, 202
